Independent Limited Assurance Report to the Directors of Capricorn Energy PLC

Independent limited Assurance Report by Deloitte LLP to the Directors of Capricorn Energy PLC ("Capricorn") on selected sustainability metrics (the "Selected Information") within the Annual Report and Data Tracker for the reporting year ended 31 December 2023.

Our assurance conclusion

Based on our procedures described in this report, and evidence we have obtained, nothing has come to our attention that causes us to believe that the Selected Information for the year ended 31 December 2023, as listed below and indicated with a * in the Annual Report has not been prepared, in all material respects, in accordance with the Applicable Criteria defined by the directors

Scope of our work

Capricorn Energy PLC has engaged us to perform an independent limited assurance engagement in accordance with International Standard on Assurance Engagements 3000 (Revised) Assurance Engagements Other than Audits or Reviews of Historical Financial Information ("ISAE 3000 (Revised)"), and the International Standard on Assurance Engagements 3410 Assurance engagements on greenhouse gas statements ("ISAE 3410") issued by the International Auditing and Assurance Standards Board ("IAASB") and our agreed terms of engagement.

The Selected Information in scope of our engagement for the year ended 31 December 2023, as indicated with a * in the Annual Report is as follows:

Selected Information	Applicable Criteria
Scope 1 emissions (tonnes CO2e) Operational boundary	Greenhouse Gas Protocol: A Corporate
Scope 2 emissions - Location based (tonnes CO2e) Operational boundary	Accounting and Reporting Standard, Revised Edition (2004) and the Corporate Value Chain (Scope 3) Accounting and Reporting Standard. Plus, any applicable methodology as published by the company (commonly referred to as a 'basis of reporting').
Scope 3 emissions categories (tonnes CO2e): • Category 6: Business travel • Category 7: Employee Commuting (Operational boundary)	

The Selected Information, as listed in the above table, needs to be read and understood together with the Applicable Criteria and management defined Basis of Reporting set out in notes in the accompanying 2023 Data Tracker published on Capricorn's website Capricornenergy.com).

Inherent limitations of the Selected Information

We obtained limited assurance over the preparation of the Selected Information in accordance with the Applicable Criteria. Inherent limitations exist in all assurance engagements.

Any internal control structure, no matter how effective, cannot eliminate the possibility that fraud, errors or irregularities may occur and remain undetected and because we use selective testing in our engagement, we cannot guarantee that errors or irregularities, if present, will be detected.

The self-defined Applicable Criteria, the nature of the Selected Information, and absence of consistent external standards allow for different, but acceptable, measurement methodologies to be adopted which may result in variances between entities. The adopted measurement methodologies may also impact comparability of the Selected Information reported by different organisations and from year to year within an organisation as methodologies develop.

We draw your attention to the specific limitations, due to the nature of the Selected Information, set out in the "Key procedures performed" section below.

Directors' responsibilities

The Directors are responsible for preparing an Annual Report which complies with the requirements of the Companies Act 2006 and for being satisfied that the Annual Report, taken as a whole, is fair, balanced and understandable.

The Directors are also responsible for:

- Selecting and establishing the Applicable Criteria.
- Preparing, measuring, presenting and reporting the Selected Information in accordance with the Applicable Criteria.
- Publishing the Applicable Criteria publicly in advance of, or at the same time as, the publication of the Selected Information.
- Designing, implementing, and maintaining internal processes and controls over information relevant to the preparation of the Selected Information to ensure that they are free from material misstatement, including whether due to fraud or error.
- Providing sufficient access and making available all necessary records, correspondence, information and explanations to allow the successful completion of our limited assurance engagement.

Our responsibilities

We are responsible for:

- Planning and performing procedures to obtain sufficient appropriate evidence in order to express an independent limited assurance conclusion on the Selected Information.
- Communicating matters that may be relevant to the Selected Information to the appropriate party including identified or suspected non-compliance with laws and regulations, fraud or suspected fraud, and bias in the preparation of the Selected Information.
- Reporting our conclusion in the form of an independent limited Assurance Report to the Directors.

Our independence and competence

In conducting our engagement, we complied with the independence and other ethical requirements of the ICAEW Code of Ethics. The ICAEW Code is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

We applied the [International Standard on Quality Management 1 ("ISQM 1") issued by the International Auditing and Assurance Standards Board. Accordingly, we maintained a comprehensive system of quality management including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Key procedures performed

We are required to plan and perform our work to address the areas where we have identified that a material misstatement in respect of the Selected Information is likely to arise. The procedures we performed were based on our professional judgment. In carrying out our limited assurance engagement in respect of the Selected Information, we performed the following procedures:

- Performed analytical review procedures and considered the risks of material misstatement of the Selected Information.
- Through inquiries of management, we obtained an understanding of the Company, its environment, processes and information systems relevant to the preparation of the Selected Information sufficient to identify and further assess risks of material misstatement in the Selected Information and provided a basis for designing and performing procedures to respond to assessed risks and to obtain limited assurance to support a conclusion.
- Through inquiries of management, we obtained an understanding of internal controls relevant
 to the Selected Information, the quantification process and data used in preparing the
 Selected Information, the methodology for gathering qualitative information, and the process
 for preparing and reporting the Selected Information. We have not evaluated the design of
 particular internal control activities, obtained evidence about their implementation or tested
 their operating effectiveness.
- Through inquiries of management, we documented whether an external expert has been used in the preparation of the Selected Information, then evaluated the competence, capabilities and objectivity of that expert in the context of the work performed and also the appropriateness of that work as evidence.
- Inspected documents relating to the Selected Information, including board committee minutes and internal audit outputs to understand the level of management awareness and oversight of the Selected Information.
- Performed procedures over the Selected Information, including recalculation of relevant formulae used in manual calculations and assessment whether the data has been appropriately consolidated.
- Performed procedures over underlying data on a statistical sample basis to assess whether the
 data has been collected and reported in accordance with the Applicable Criteria, including
 verifying to source documentation.
- Performed procedures over the Selected information including assessing management's assumptions and estimates.
- Accumulated misstatements and control deficiencies identified, assessing whether material.
- Read the narrative accompanying the Selected Information with regard to the Applicable Criteria, and for consistency with our findings.
- Performed an assessment of the criteria (the benchmarks used to measure or evaluate the
 underlying information) to determine whether they are suitable for the engagement
 circumstances, and where necessary, discussed with the directors the need for a basis of
 reporting.

The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed.

Our engagement is to provide limited assurance over the preparation of the Selected Information in accordance with the Applicable Criteria. We draw your attention to the following specific limitations:

- Scope 3 category 7 metric is derived from reported events relating to employee commuting, our testing may not identify misstatements relating to the accuracy of the information provided by employees.
- The Selected Information listed above include information provided by suppliers and thirdparty sources. Our procedures did not include obtaining assurance over the information provided by suppliers or third parties.

Use of our report

This report is made solely to the Directors of Capricorn Energy PLC in accordance with ISAE 3000 (Revised), ISAE 3410 and our agreed terms of engagement. Our work has been undertaken so that we might state to the Directors of Capricorn Energy PLC those matters we have agreed to state to them in this report and for no other purpose.

Without assuming or accepting any responsibility or liability in respect of this report to any party other than Capricorn Energy PLC and the Directors of Capricorn Energy PLC, we acknowledge that the Directors of Capricorn Energy PLC may choose to make this report publicly available for others wishing to have access to it, which does not and will not affect or extend for any purpose or on any basis our responsibilities. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than Capricorn Energy PLC and the Directors of Capricorn Energy PLC as a body, for our work, for this report, or for the conclusions we have formed.
