

Capricorn

Creating a MENA Gas and Energy Champion

Investor Presentation

29 September 2022

NOT FOR RELEASE, PRESENTATION, PUBLICATION OR DISTRIBUTION IN WHOLE OR IN PART IN, INTO OR FROM ANY JURISDICTION WHERE TO DO SO WOULD CONSTITUTE A VIOLATION OF THE RELEVANT LAWS OR REGULATIONS OF SUCH JURISDICTION.

This presentation has been prepared by NewMed Energy Limited Partnership ("NewMed") and Capricorn Energy plc ("Capricorn") in connection with the proposed recommended combination of NewMed and Capricorn (the "Recommended Combination"). These slides do not purport to contain all the information that may be necessary or desirable to fully and accurately evaluate NewMed, Capricorn or the business prospects of the Recommended Combination. The information set out in this presentation is not intended to form the basis of any contract. By attending (whether in person, by telephone or webcast) this presentation or by reading the presentation slides, you agree to the conditions set out below. This presentation (including any oral briefing and any question-and-answer in connection with it) is not intended to, and does not constitute, represent or form part of any offer, invitation or solicitation of any offer to purchase, otherwise acquire, subscribe for, sell or otherwise dispose of, any securities or the solicitation of any vote or approval in any jurisdiction. No shares are being offered to the public by means of this presentation. You should conduct your own independent analysis of NewMed, Capricorn and the Recommended Combination, including consulting your own independent advisers in order to make an independent determination of the suitability, merits and consequences of the Recommended Combination. You should not base any behaviour in relation to financial instruments related to NewMed's or Capricorn's securities or any other securities and investments on information contained in this presentation until after such information is made publicly available by NewMed or Capricorn or any of their advisers. Any dealing or encouraging others to deal on the basis of such information may amount to insider dealing under the Criminal Justice Act 1993 and/or market abuse under the Market Abuse Regulation (and/or, as applicable, such regulation as it forms part of the domestic UK law by virtue of section 3 of the European Union (Withdrawal) Act 2018 as amended from time to time). The release, presentation, publication or distribution of this presentation in jurisdictions other than the United Kingdom may be restricted by law and therefore any persons who are subject to the laws of any jurisdiction other than the United Kingdom should inform themselves about and observe any applicable requirements. Any failure to comply with applicable requirements may constitute a violation of the laws and/or regulations of any such jurisdiction. This presentation is being made available only to persons who fall within the exemptions contained in Article 19 and Article 49 of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 and persons who are otherwise permitted by law to receive it. This presentation is not intended to be available to, and must not be relied upon, by any other person.

None of NewMed, Capricorn, their shareholders, subsidiaries, affiliates, associates, or their respective directors, officers, partners, employees, representatives and advisers (the "Relevant Parties") makes any representation or warranty, express or implied, as to the accuracy or completeness of the information contained in this presentation, or otherwise made available, nor as to the reasonableness of any assumption contained herein or therein, and any liability therefore (including in respect of direct, indirect, consequential loss or damage) is expressly disclaimed. Nothing contained herein or therein is, or shall be relied upon as, a promise or representation, whether as to the past or the future and no reliance, in whole or in part, should be placed on the fairness, accuracy, completeness or correctness of the information contained herein or therein. Further, nothing in this presentation should be construed as constituting legal, business, tax, actuarial, financial or other specialist advice. None of the Relevant Parties has independently verified the material in this presentation. No statement in this presentation (including any statement of estimated synergies) is intended as a profit forecast or estimate for any period and no statement in this presentation should be interpreted to mean that cash flow from operations, free cash flow, earnings, earnings per share or income on a clean current cost of supplies basis for NewMed or Capricorn or the combined group, as appropriate, for the current or future financial years would necessarily match or exceed the historical published cash flow from operations, free cash flow, earnings, earnings per share or income on a clean current cost of supplies basis for NewMed or Capricorn, as appropriate.

Statements of estimated cost savings and synergies relate to future actions and circumstances which, by their nature, involve risks, uncertainties and contingencies. As a result, the cost savings and synergies referred to may not be achieved, may be achieved later or sooner than estimated, or those achieved could be materially different from those estimated. For the purposes of Rule 28 of the City Code on Takeovers and Mergers ("City Code"), quantified financial benefits statements which may be contained in this presentation are the responsibility of the relevant party. Neither Capricorn nor its directors will be responsible for any quantified financial benefits statement, or any statement on synergies or any information set out in this presentation relating to NewMed or its group. Neither NewMed nor its directors will be responsible for any information set out in this presentation relating to Capricorn or its group. Neither the quantified financial benefits statement nor any other statement in this presentation should be construed as a profit forecast or interpreted to mean that the combined group's earnings in the first full year following implementation of the Recommended Combination, or in any subsequent period, would necessarily match or be greater than or be less than those of NewMed or Capricorn for the relevant preceding financial period or any other period. The bases of belief, principal assumptions and sources of information in respect of any quantified financial benefit statement are set out in the announcement published or to be published in connection with the Recommended Combination. As a result of rounding, the totals of data presented in this presentation may vary slightly from the actual arithmetic totals of such data.

This document may contain certain 'forward-looking statements' with respect to NewMed's, Capricorn's or the combined group's plans and their current goals and expectations relating to future financial condition, performance, results, strategy and objectives. For example, statements containing words such as 'may', 'will', 'should', 'continue', 'aims', 'estimates', 'projects', 'believes', 'intends', 'expects', 'plans', 'pursues', 'seeks', 'targets', 'goals', 'risks', 'outlook' and 'anticipates', and words of similar meaning, may be forward-looking. By their nature, all forward-looking statements involve risk and uncertainty because they are based on information available at the time they are made, including current expectations and assumptions, and relate to future events and circumstances which may be or are beyond NewMed or Capricorn's control. As a result, NewMed or Capricorn's actual future financial condition, performance and results may differ materially from the plans, goals, strategy and expectations set forth in the forward-looking statements. Persons receiving this document should not place undue reliance on forward-looking statements. For a discussion of important factors which could cause actual results to differ from forward looking statements relating to NewMed, refer to NewMed's Annual Report and Accounts for the year ended 31 December 2021. For a discussion of important factors which could cause actual results to differ from forward looking statements relating to Capricorn, refer to Capricorn's Annual Report and Accounts for the year ended 31 December 2021. Neither NewMed nor Capricorn undertake any obligation to update any of the forward-looking statements contained in this document or any other forward-looking statements it may make. Past performance is not an indicator of future results and the results of NewMed and Capricorn in this document may not be indicative of, and are not an estimate, forecast or projection of, NewMed, Capricorn, or the combined group's future.

The new Capricorn shares have not been, and will not be, registered under the U.S. Securities Act of 1933, as amended (the “U.S. Securities Act”) or under the securities laws of any state or other jurisdiction of the United States. Accordingly, the new Capricorn shares may not be offered, sold or delivered, directly or indirectly, in or into or from the United States absent registration under the U.S. Securities Act or an exemption therefrom. The new Capricorn shares are expected to be issued in reliance upon the exemption from the registration requirements of the U.S. Securities Act provided by Section 3(a)(10) thereof. Under applicable U.S. securities laws, persons (whether or not U.S. persons) who are or will be “affiliates” (within the meaning of the U.S. Securities Act) of Capricorn or NewMed prior to, or of Capricorn after, the consummation of the Recommended Combination will be subject to certain U.S. transfer restrictions relating to the New Capricorn shares received pursuant to the Scheme.

The Recommended Combination will be subject to UK and Israeli procedural and disclosure requirements and practices, which differ from those of the United States.

The Recommended Combination relates to the acquisition of an Israeli limited partnership and is proposed to be effected by means of a scheme of arrangement under the laws of Israel. A transaction effected by means of a scheme of arrangement is not subject to proxy solicitation or tender offer rules under the U.S. Exchange Act. Accordingly, the Scheme is subject to the disclosure requirements, rules and practices applicable in Israel to schemes of arrangement, which differ from the requirements of U.S. proxy solicitation or tender offer rules.

The financial information herein has been prepared in accordance with IFRS and may not be comparable to financial information of companies whose financial statements are prepared in accordance with U.S. GAAP.

It may be difficult for U.S. holders to enforce their rights and claims arising out of the U.S. federal securities laws, since Capricorn and NewMed are located in countries other than the United States, and some or all of their officers and directors may be residents of countries other than the United States. U.S. holders may not be able to sue a non-U.S. company or its officers or directors in a non-U.S. court for violations of the U.S. securities laws. Further, it may be difficult to compel a non-U.S. company and its affiliates to subject themselves to a U.S. court's judgment.

This presentation is not intended to and shall not constitute an offer to buy or sell or the solicitation of an offer to buy or sell any securities, or a solicitation of any vote or approval, nor shall there be any offer, solicitation or sale of securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction.

This presentation should be read in conjunction with the announcement made or to be made by NewMed and Capricorn, the prospectus and shareholder circular to be published by Capricorn and any other relevant documents relating to the Recommended Combination published by NewMed and/or Capricorn, which are available or will be made available in due course at www.capricornenergy.com or via other means as required or appropriate. Any decision taken in relation to the Recommended Combination should only be taken by reference to the information set out in (or otherwise incorporated by reference into) such documents.

Transaction Overview

Recommended strategic combination of NewMed and Capricorn, achieved through an all-stock reverse takeover

Key Terms	<ul style="list-style-type: none"> Pro-forma ownership¹: 89.7% NewMed shareholders, 10.3% Capricorn shareholders Pre-completion dividend to Capricorn shareholders of \$620m² <ul style="list-style-type: none"> £1.72 dividend per share £0.99 exchange value per share³ Combined company will be headquartered in the UK with leadership from both companies Combined company will be LSE listed, with secondary listing on TASE
Premium	<ul style="list-style-type: none"> Exchange ratio represents c.13% premium to the current Capricorn share price⁴ c.46% premium to the theoretical ex-dividend share price⁵
Timing	<ul style="list-style-type: none"> Completion targeted in Q1 2023

Post transaction shareholding structure

Source: Partnership information

¹ Based on NewMed issued share capital (pre-dilution) of 1,174m, Capricorn issued share capital (pre-dilution) of 315m, exchange ratio of 2.3373x. ² Proposed pre-completion special dividend of \$620m paid to Capricorn's existing shareholders and to participants in certain of Capricorn's share plans, of a cash sum in settlement of their "dividend equivalent" rights. ³ Based on NewMed GBP closing price of £2.30/sh as of 28 September 2022 and exchange ratio of 2.3373x. ⁴ Based on Capricorn GBP share price of £2.40 on 28 September 2022. ⁵ Based on £0.99 exchange value per share and theoretical Capricorn GBP share price ex-dividend of £0.68.

Gas

- One of the largest upstream energy independents listed in London
- >90% gas weighted portfolio
- Pivotal player in meeting regional energy demand

Financial Strength

- Long reserve life
- Expectation of contracted, secure and visible cash flows
- Strong balance sheet

Growth

- Visible near-term growth
- Expectation to double production by 2030 from existing portfolio¹
- Geared to supply LNG to Europe

Returns

- Attractive shareholder returns
- Planned annual dividend of >30% of annual FCF (pre-growth capex)

ESG

- Commitment to Net Zero Scope 1+2 by 2040
- Premium list governance

+

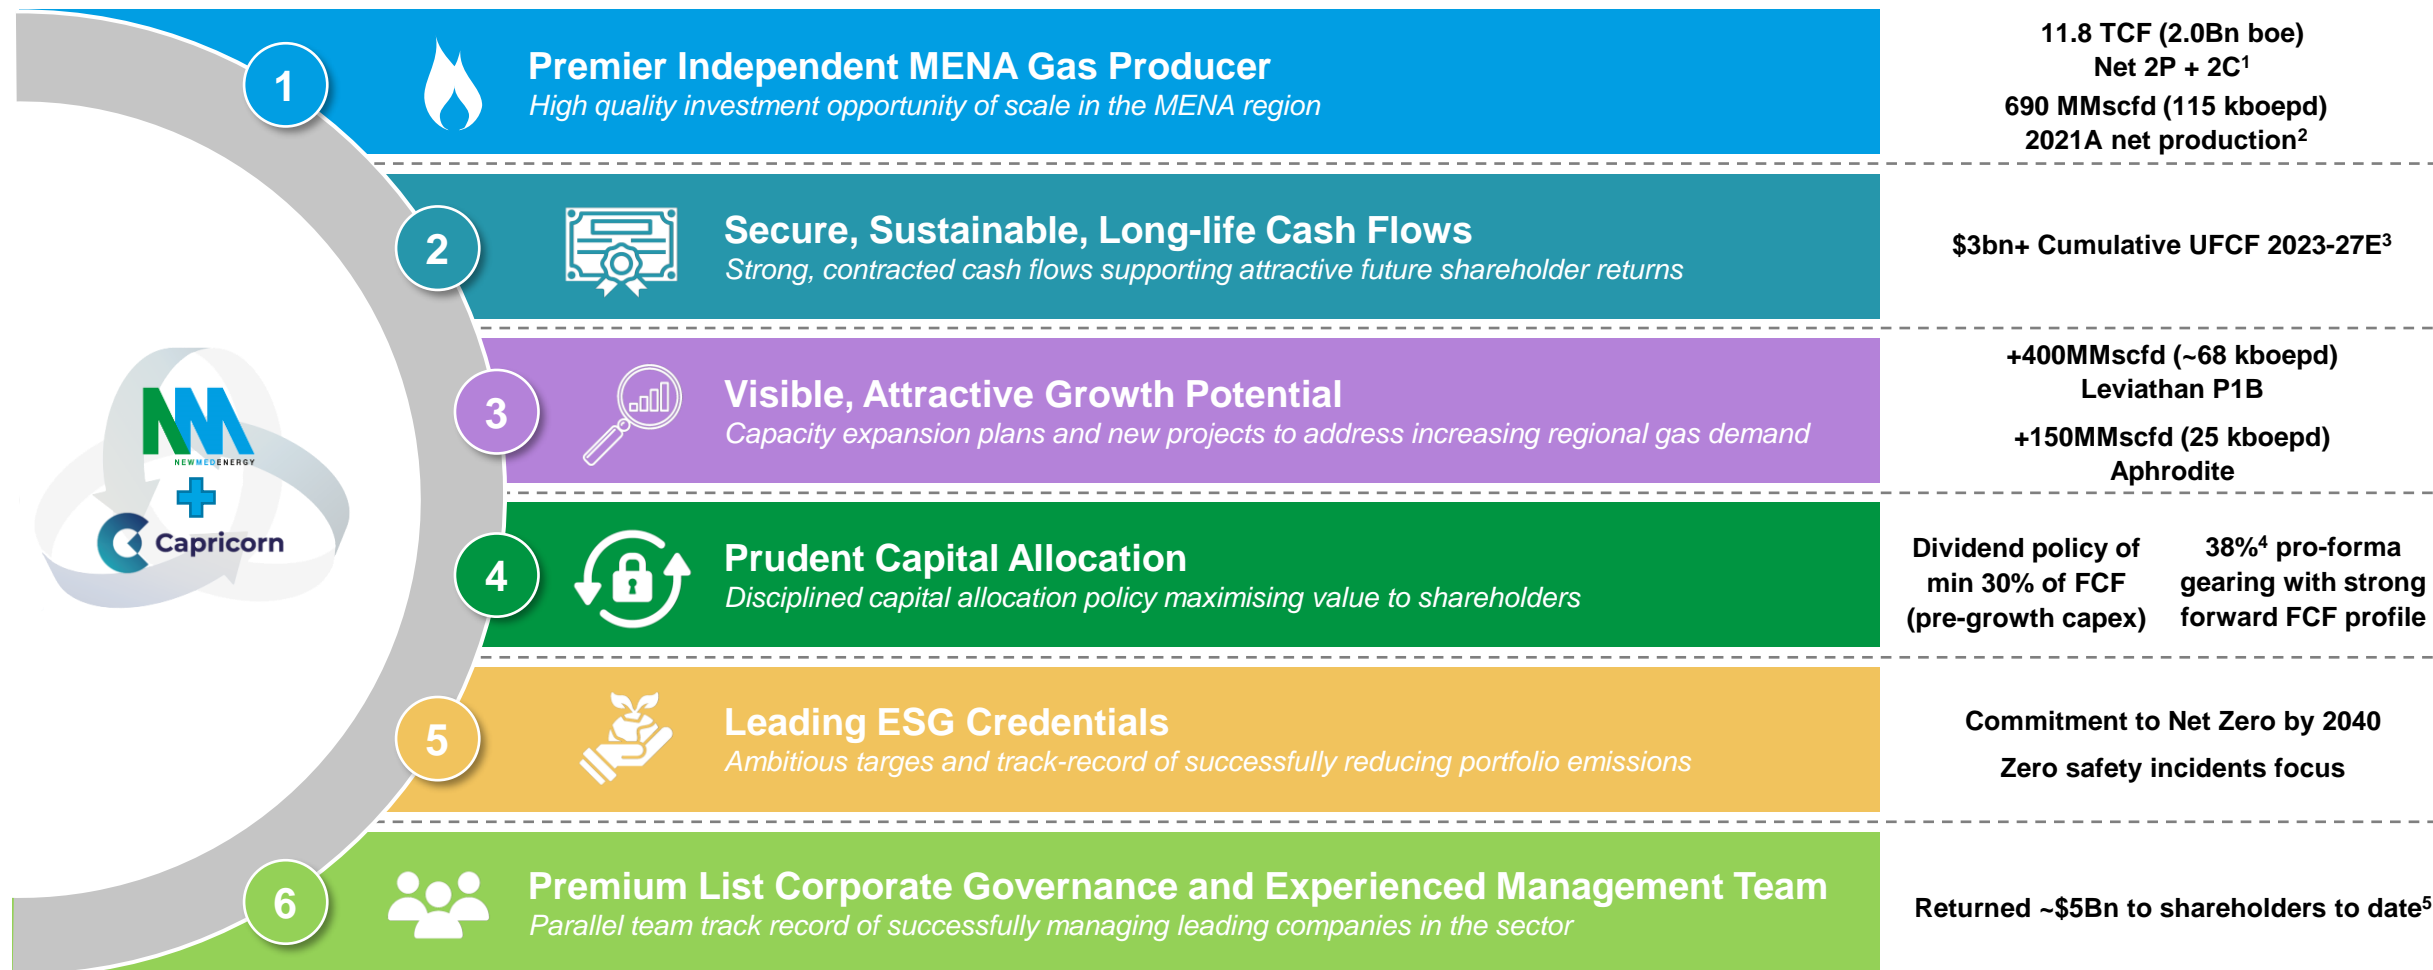

Capricorn

Yossi Abu
CEO, NewMed

Source: Partnership information; Note: European independent energy peers include Harbour Energy, AkerBP, Energean, Kosmos and Neptune. BCF = 0.167 Mmboe

¹ Year end 2021 CPR. Boe include Capricorn oil 2P and 2C. ² Comprised fully of Leviathan's 45.34% working interest; ³ Unlevered free cash flow for existing producing assets, according to Leviathan NSAI report as of December 2021 and Capricorn estimate. ⁴ Calculated as proforma post dividend net debt of \$1,967m as of Jun-2022 divided by EV. EV calculated as a sum of the net debt and theoretical proforma market cap calculated based on the £0.99/sh value from the exchange and proforma shares issued of 3,256m (315m Capricorn shares and 1,174m NewMed shares at 2.3373x exchange ratio). ⁵ Capricorn dividends and buybacks in the last 15 years.

1 Creating a MENA Gas and Energy Champion

Cyprus

Aphrodite

Large discovered resources expected to underpin standalone LNG export development to deliver additional gas to Europe and global markets

Israel

Leviathan Phase 1A

Large, long-life, flagship producing asset delivering gas to strong credit quality off-takers under long-term, take-or-pay contracts with downside protection

Israel

Leviathan Phase 1B

Low-cost, high-return brownfield expansion of flagship project expected to facilitate delivery of LNG to European export markets

Mauritania

Offshore Mauritania

Exploration prospectivity in a proven play

Egypt

Egypt Western Desert

Cash generative producing assets with attractive near-field appraisal, development and exploration opportunities in Western Desert

Producing Assets

Development and Key Exploration Assets

World class gas-focused portfolio of producing and development assets

1 Leviathan: High Quality Reserves and Resources with Low-cost Production

NewMed Energy's core asset Leviathan ranks as one of the world's most attractive gas fields

2 Leviathan: Sustainable, Resilient, Long-life Cash Flows

-  Multi-decade production beyond 2050
-  Predictable price mechanism with downside protection (average realised Q2 2022 gas price of \$6.5/mcf)
-  Long-term domestic and regional export contracts with take-or-pay mechanism
-  Expansion Capex potentially funded from cash flows

Secure and stable cash flows with downside protection

Long-life cash flows underpinned by a substantial portion of long-term, take-or-pay contracts

Key Considerations

Dry gas with limited impurities requires simple processing facilities

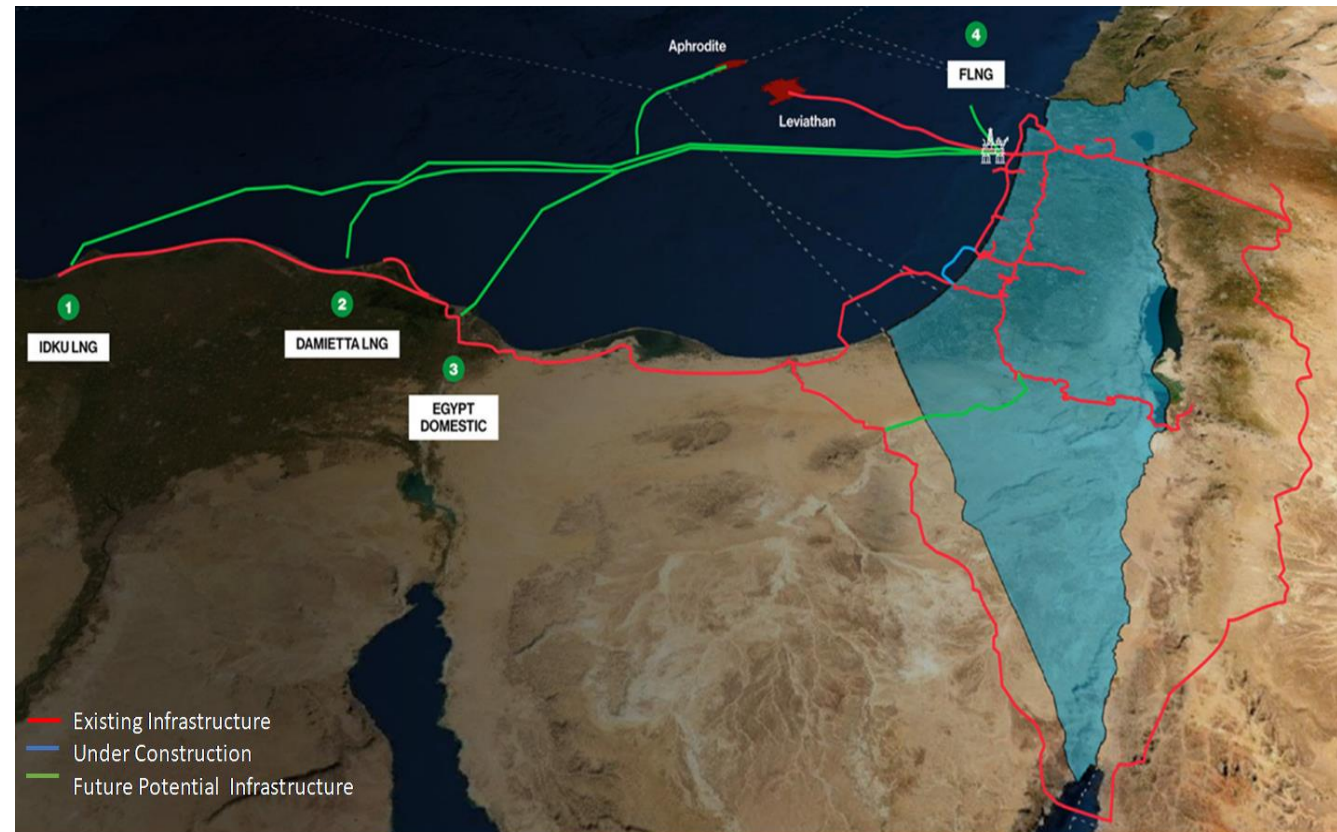

Original development designed with provision for expansion

Phase 1A

- Initial stage of development; sanctioned Feb 2017; first gas end 2019
- 4 high rate wells with capacity of over 1.2 BCF/d
- Ultra low Scope 1+2 emissions: ~1.7kgCO₂e/boe

Phase 1B

- Concept select underway with Pre-FEED expected 2023
- Platform capacity expansion with addition of a Regional Export Module (REM)
- Two additional wells, subsea infrastructure and processing trains
 - Incremental capacity: 900MMscf/d
- Gas liquefaction capacity
 - Utilisation of available Egyptian liquefaction capacity
 - Addition of FLNG vessel to diversify export markets
- Additional infill wells to be added as required dependant on market demand and to maintain excess well capacity

Leviathan capacity expansion can meet growing regional gas demand and provide LNG to international markets this decade

1

Leviathan

Phase 1B Facilities Expansion

- Platform capacity expansion with addition of a Regional Export Module (REM) adding 900 MMscfd (150kboepd) capacity
- Capacity expansion to 2.1Bcf/d (350kboepd)
- Expansion to export pipeline capacity
- Additional pipeline sales to Israel, Egypt and Jordan
- Access to under-used regional liquefaction capacity, or dedicated facilities
- Pre-FEED 2023; Target first gas < 2030
- Partners: Chevron (39.66%), Ratio (15%)

2

Aphrodite

Tieback to existing facilities

- Development of subsea facilities with ~500MMscfd (83kboepd) capacity, tied back to existing Egyptian gas network
- Raw gas to be flowed to existing liquefaction facilities via existing pipelines
- Spare capacity in Egyptian network and processing facilities combined with minimal regulatory bottlenecks make it a favourable option
- Pre-FEED 2023/2024; Target first gas <2030
- Partners: Chevron (35%), Shell (35%)

3

Egypt Western desert assets

Egypt Western desert

- Low-cost, gas-weighted onshore production with strong near-term development and exploration potential
- Producing fields split over four distinct areas, including the Obaiyed area, containing Egypt's largest onshore gas field
- Active drilling programme targeting robust opportunity inventory with current focus on liquids
- Rapid payback, high IRR opportunities
- Partner: Cheiron (50%)

Estimated net production profile¹

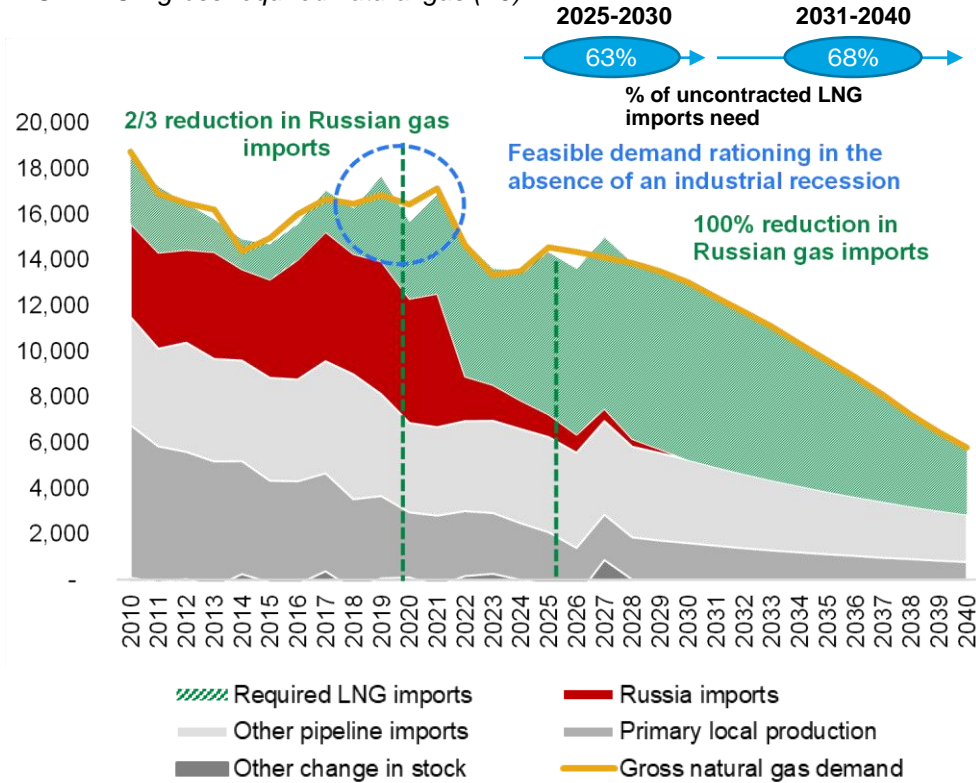

kboed

Leviathan Phase 1B and Aphrodite development expected to deliver portfolio production > 1.2Bcf/d (200 kboepd) production by 2030

Europe seeking to replace ~21 BCF/d¹ of Russian gas supply in 2030

EU27 + UK gross required natural gas (PJ)

Well placed to supply gas to Europe

Trilateral Natural Gas Agreement

- Signed by Israel, Egypt and the European Union in Jun-2022
- Aimed at reducing European dependence on Russian supplies

Israel's Contribution

- Deal to allow Israel to ramp up natural gas exports to Europe
- 22% surge in natural gas output in H1 2022, as Israel promises to accelerate production

Leviathan Role

- Leviathan along with Tamar: major contributors to production increase
- Expansion of regional export infrastructure and addition of dedicated liquefaction capacity

Well-placed to deliver reliable source of gas to regional and European markets

+

Capricorn

James Smith
CFO, Capricorn

4 Prudent Capital Allocation Policy

Resilient cash flows and prudent balance sheet support material and sustainable dividend capacity

Source: Partnership information;

¹ Proforma net debt after \$620m dividends. ² Calculated as proforma post dividend net debt of \$1,967m as of Jun-2022 divided by EV. EV calculated as a sum of the net debt and theoretical proforma market cap calculated based on the £0.99/sh value from the exchange and proforma shares issued of 3,256m (315m Capricorn shares and 1,174m NewMed shares at 2.3373x exchange ratio).

Committed to Scope 1+2 Emissions Net Zero by 2040

Track record with Israel focus

Commitment and road map

- Committed to Net Zero Scope 1+2 by 2040
 - Operational decarbonisation activities underway in Egypt
 - Zero routine flaring by 2030 in line with World Bank initiative
 - Continue to pursue carbon sequestration opportunities
 - Portfolio of high quality, diversified carbon offsets
- Committed to UN SDGs and transparent ESG disclosure under TCFD, SASB and GRI
- Continued pursuit of gas resources with the aim to offset regional and international coal fired power generation, as proven in Israel
- MOU with Enlight Renewable Energy
 - Joint development of renewable energy projects across MENA
 - Intention to leverage local partnerships and relationships for future developments

Track-record of successfully reducing emissions at the portfolio and national level

Relationship Agreement Highlights

- Customary independence provisions under the listing rules
- 12-month lock-up of Delek Group's shares
- Delek Group's right of appointment of two directors while their ownership stake remains above 25%
- Delek Group to remain below 50% at completion and be subject to usual Takeover Code rules on further acquisitions

+

Capricorn

Yossi Abu
CEO

Appendix

Key considerations

- Existing platform designed to accommodate additional 900 MMscfd processing trains (~150 kboepd)
- Total Leviathan output to increase from 1.2 Bcf/d (~200 kboepd) to 2.1 Bcf/d (~350 kboepd)
- Regional export infrastructure is expected to be expanded to enable sales by pipe, with potential for export as LNG to EU via Egypt
- Dedicated liquefaction capacity is expected to be added to deliver reliable supply of LNG to EU and Asian markets

Development Plan

- Two additional subsea production wells to support 1st REM gas (with high rate deliverability)
- Additional infield flow lines tying to existing subsea system
- Construction and installation of additional subsea capacity from the subsea manifold to the Leviathan Platform
- Additional processing modules as used in Phase 1A
- Dry, lean gas simplifies liquefaction processing requirements

Key highlights

Additional Nameplate Capacity	c.900 MMscfd (~150 kboepd)
Target Pre-FEED	2023
Planned Development Concept	REM 900 to liquefaction facilities and regional market

Leviathan expansion is an attractive, low-risk development opportunity that will drive the near-term growth offering by accessing strong regional and EU market gas demand

Key considerations

- Gross contingent and prospective resources of ~4.5 TCF (~751.5 mmboe)
- Lean, sweet natural gas
- Aphrodite is geologically similar to Leviathan
- The Government and the partners are exploring development alternative to supply gas to the existing liquefaction facilities via existing pipelines

Development Plan

- 25-yr (+10-yr option to extend) production license granted by the Government in 2019, along with the approval of a development outline
- Partners working with the Cypriot Government to update the development plan, and integrate the development with existing facilities
- Plans to drill a third appraisal well with a view to subsequently use it as a production well

Geographical overview

Key highlights

Additional Nameplate Capacity	~0.5 Bcf/d p.a. Gross (~80.5 kboepd)
Target Pre-FEED	2023 / 2024
Planned Development Concept	Tieback to existing facilities

Aphrodite appraisal drilling in Q1 2023 will enable concept finalisation ahead of expected final investment decision

Key considerations

- Low-cost, gas-weighted onshore production with strong near-term development and exploration potential
- Producing fields split over four distinct areas, including the Obaiyed area, containing Egypt's largest onshore gas field
- Active drilling programme targeting robust opportunity inventory
- Production sharing contract in place
- Partners: Cheiron 50%

Development Plan

- Five rig development drilling programme underway
- 10 exploration wells (9 operated) planned in first exploration phase out to 2024
- First operated seismic programmes beginning in 2022
- Four exploration concessions covering ~15,000 km, three operated

Key highlights

H1 2022 production	~35,500 boepd average WI production
FY 2022 production guidance	33,000 boepd to 36,000 boepd WI production
FY 2022 capex guidance	US\$80-90m production and development Rolling near-field tie-back and field development programme + US\$20-25m exploration programme targeting step out opportunities
FY 2022 opex guidance	~US \$6/boe

Low-cost producing asset base with strong development pipeline and attractive nearfield exploration opportunities
